a 100-ton thrust propulsion unit was being
planned at Peenemunde and the matter was discussed during visits to this research station. remembers no
details and does not know designation nor code number of this
project. however reasonably certain that the missile under
investigation was single stage."

"By the time the Germans left, the whole of the activities of
Zavod 456 were concentrated on the 100-ton project. The neces-
sary test gear had been completed and Chwalczyk had reported
that experiments with the cooling jacket had proved successful.
Putze gathered from the general feeling of urgency shown by the
Russian staff that a small series production of this com' stion
chamber was proceeding."

[redacted] no proof that series production of the V.1 is taking place in the USSR. [redacted] the necessary jigs and tools were forwarded by 456 to an unknown destination. His guess of production is based on the enthusiasm shown by Russian engineers."

5.

25X1

25X1

25X1

[redacted] does not know what kind of work is being done at Lake Seeliger. Reading between the lines of letters he has received whilst still in Russia, Putze thinks that no experimental work is carried out on the island."

6.
